Custom Reports

If our standard reports do not meet your needs, we can create a custom solution. Scantron Survey Consultants are experts at summarizing the survey findings. The analysis can be basic, or can include the identification of Key Drivers, derived through advance statistical analysis. We will draw appropriate conclusions, identify meaningful trends and suggest next steps.

Scantron Consultants will help your leadership team draw appropriate conclusions and set realistic goals. We can also help you create a plan to consistently share the results throughout the organization. The focus of effective action planning is to ensure that all employees are engaged in making meaningful improvements in key areas that impact employees and customers.
