

Got Performance Series® Data? Want to Kick It into Gear?

Alabama Educators Shift Student Performance with
Compass Learning® and Scantron Performance Series®

HOOVER CITY SCHOOLS

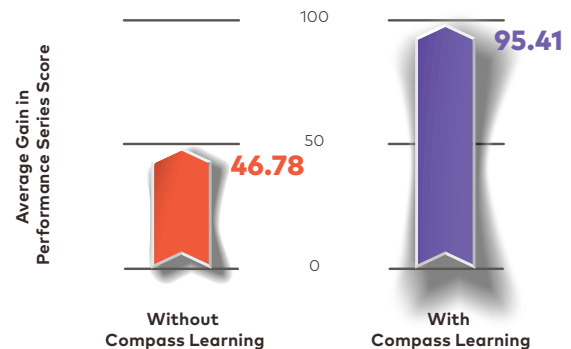

IRA F. SIMMONS
MIDDLE
SCHOOL

“Using Compass Learning software was like having a second teacher in the room.”

— 7th grade ELA teacher

PIEDMONT CITY SCHOOLS

“Our students were not only getting it, they were mastering it. The only thing we could conclude is that because the technology was enabling them to do more . . . , they were gaining a broader, deeper understanding of topics.”

— Jerry Snow,
Principal, Piedmont M.S.

“I diligently researched instructional software and compared several programs side-by-side. Compass Learning is by far the best program out there. We recently used Compass Learning in our summer school program, and we had such positive feedback . . . All 250 students in summer school said they preferred to use Compass Learning over previous traditional methods. We have buy-in from both students and teachers, and we’re seeing results.”

—Dr. Shannon Stanley, Curriculum Director,
Jefferson County Schools
