

Canvas® Integration

Learning Management System Course Evaluation Connector

Class Climate's Canvas integration makes it more convenient for students and instructors to access their course evaluations from their Canvas home page. The integration is available as a Learning Tools Interoperability (LTI) connector.

Basic Integration

Together, Class Climate and Canvas work to increase student response rates and to encourage honest feedback.

The **student portal** provides each student with a list of their open online evaluations.

Each survey opens in a new browser window. After students complete a survey, the window displays which evaluations they have completed and which are pending, so they can complete all their evaluations at one sitting.

The **instructor portal** provides a list of each instructor's classes, showing the evaluation response rate and providing access to the most current results report.

Student Portal

Course	Status	Due Date
Environmental Design (14.AD.2634)	Closes in 2 Days	08/27/2017 at 05:20:00 pm
Design Technology (14.AD.2734)	Closes in 6 Days	09/01/2017 at 05:05:00 pm
History and Theory of Architecture (14.AD.2754)	Submitted	
Structure, Materials and Forming Techniques (14.AD.2634)	Data available	

Instructor Portal

Course	Current Response Rate	Final Response Count	Status
Design Technology (14.AD.2734)	13% (5 of 40)	395 of 478	Closes in 6 Days
Design Projects (14.AD.2135)	83%		View Report
Introduction to Programming for Architecture and Design (17.AD.3835)	Current Response: 82		

Advanced Integration

The **advanced student portal** includes additional access points for evaluations:

- A more graphical dashboard
- The To Do list
- The calendar
- As assignments

Advanced Student Portal

The dashboard shows three course cards: Applied Science (LTI-12345), Introduction to Science (Intro-101), and Linear Algebra/Calculus of Variat... (CALC-101). A 'To Do' list on the right shows 'Applied Science Survey' (5 points, Sep 22 at 9:50am) and 'Introduction to Science Survey' (Sep 26 at 9:52am). Below the dashboard is a screenshot of the 'Applied Science Survey' assignment page, which includes a navigation menu (Home, Assignments, Discussions, Grades, People, Syllabus) and a message: 'This tool needs to be loaded in a new browser window. Load Applied Science Survey in a new window.'

The **advanced instructor tools** include additional setup and incentive options for evaluations:

- A more graphical dashboard
- The calendar
- As assignments that count toward course grades with an automatic score postback to the Gradebook

Advanced Instructor Tools

The dashboard shows a filter box 'Filter by student name or secondary ID' and a table with columns: Student Name, Secondary ID, Applied Science Survey (Out of 5), Assignments, and Total. The table contains two rows: one for 'JP' (jean-philippe.dalgo) with a score of '-' and one for 'student' with a score of '100%' and a checkmark. Below the dashboard is a screenshot of the 'Edit Assignment' form, which includes fields for Name (Applied Science Survey), Due (Sep 22 at 9:50am, Sun Sep 22, 2019 9:50am), and Points (5). Buttons for 'More Options', 'Cancel', and 'Save' are at the bottom.

Student Name	Secondary ID	Applied Science Survey Out of 5	Assignments	Total
JP	jean-philippe.dalgo	-	-	-
student	student	✓	100%	100%

When you set up an evaluation as an assignment, you can:

- Set points
- View each student's survey status in the Gradebook

Evaluations remain anonymous. You can see that a student completed the evaluation, but you cannot access the student's responses directly. To view results, use the dashboard.
