

Plug it in, Get results!

with Scantron® and Remark™

You need accurate, reliable results for your tests and quizzes. For more than 40 years, Scantron has had a proven track record for assessing student and employee knowledge efficiently and accurately. Use a Scantron® scanner to quickly score your tests and the power of Remark™ reporting to analyze the results. With just a few clicks, identify your students' gaps and achievements.

Actionable Reports for the Data-Driven Classroom

- Analyze student performance against standards
- Create differentiated instruction
- Apply remediation approaches

Less Time Grading, More Time Teaching

- Use existing tests and processes
- Get rapid, accurate, reliable results
- Export results to your grading system for longitudinal analysis

And Much More...

- Capture student IDs at the same time as student scores
- Process multiple test versions
- Scan student data using industry-leading Scantron scanners
- Capture archive images along with data*

*Using iNSIGHT scanners
