Rapid and Reliable Scanning
On Your Desktop

OpScan® 4ES OMR Scanner

Trust the Scantron family of high-precision data-collection tools, with their proven optical mark recognition (OMR) data capture features, to meet your data management needs. The OpScan 4ES OMR scanner is one of the most versatile and efficient desktop scanners available for automated data collection.

Rapid Scanning: More Than 2,800 Sheets per Hour!

Reliable Pencil-Mark Capture

Open Feed Path
Trust the Scantron brand
More than 40 years of data capture expertise provides the quality and reliability you deserve.

Capture ALL Your Data with a Single Scanner
Advanced read heads collect multiple data types in a single pass: pencil and pen OMR marks, bar codes, handprint capture, and much more.

Faster, Easier Form Loading
The easy paper guide means no more waiting for tray motors—simply press and load. Feed detection ensures every form is fed correctly.

Accommodate Multiple Form Sizes
Flexible software tools (available separately) let you define a variety of form types and sizes.

Take the Guesswork Out of Scanning
Open feed path provides clear view of forms being scanned.

Avoid Paper Jams
Built-in stand tilts the scanner so forms are always in the right place for faster scanning without paper jams.

Read Marks Accurately
Reads pencil marks without smudging! Rollers feed from side of form, instead of above form like most scanners. Roller angle keeps forms straight, increasing scanning speed and avoiding paper jams.

Avoid Damaging Static Shock
Static-dissipating plastics maintain light weight while eliminating static buildup and paper-handling issues.

Capture ALL Your Data with a Single Scanner
Advanced read heads collect multiple data types in a single pass: pencil and pen OMR marks, bar codes, handprint capture, and much more.
Optional Equipment

- Print information directly on the sheet being scanned, based on the scanned data, by adding an internal, interactive printer. Print error codes, messages, serial numbers, validation flags, and test scores on each form without slowing down scanning.
- Process data contained in most standard barcode formats using the optional barcode reader.
- Score tests, collect surveys, and tally ballots—without being connected to a computer—by adding the SelfScore feature.
- Collate scanned sheets based on criteria selected in your scanning software using the optional Select Stacker.

Dual Read Heads: Contact Image Sensor Arrays, 16-level OMR, Pencil Read Capabilities.

Forms: 64 mm x 127 mm to 229 mm x 356 mm (2.5" x 5" to 9" x 14"); 90-148 g/m² offset (60-100 lb.)

Scans both Mark Reflex and Trans-Optic forms

Feeder Capacity: Auto-feed, 100 sheets

Output Stacker Capacity: 100 sheets, main stacker; 100 sheets, select stacker (if present)

Message Display: 40 character, alphanumeric

Scanning Rate: 2,800 sheets per hour (actual scanning rate depends on quantity of data read from the form and the amount of processing done on the data while scanning)

Multi-feed detection

Product information is subject to change without notice.
