

## Scanning Services

### *Outsource your data collection and reporting*

Do you have a backlog of course evaluation, survey, or assessment forms that need to be scanned? Are you (just like everyone else) running short on time and resources? Scantron can help ease the burden of data-processing peaks. We'll scan your forms, transforming them into actionable data, and send you an output file you can use however you'd like. We can also create text and graphic reports, so you can view your results and make informed decisions even faster.

### ***Fast. Convenient. Reliable.***

You don't need to hire extra staff or rely on temporary help who must be trained. You don't need to assume the burden of rekeying forms or entering comments. You don't need extra scanners or space to set them up. Just pack up your backlog of forms and send them to Scantron. We'll process the forms and send you the results so you can focus on using your data instead of collecting it.

Scantron's data-processing experts are trained to get the best results from Scantron scanners and software. We apply decades of knowledge and experience to your project's specific needs, ensuring you get the highest return on your assessment, evaluation, or survey investment.

### ***Data Files and Reports You Can Use***

In addition to a file containing the raw data, Scantron can provide a variety of text and graphical reports to show your results at their best. We will work with you to determine exactly the right presentation to make your assessment, evaluation, or survey results shine.

Options include:

- Microsoft® Excel®
- Comma-Separated Value
- Text
- PDF®
- ParSystem®
- Remark®
- ScanTools® Plus
- SurveyTracker Plus®

Don't see the format you prefer? Contact your account representative—chances are we can create the output format you need.

**GET THE RESULTS YOU NEED  
TO MAKE INFORMED BUSINESS  
DECISIONS TODAY!**
