

Test Less, Know More

Scantron solutions and services support your measures

Educators know that assessment is a crucial part of today's educational climate. They also realize the need to balance reduced testing time demanded by parents with accountability requirements that are based on high-quality assessments. Scantron has a range of assessment and analytics solutions that can help you achieve that balance.

Monitor

student achievement with
Scantron Assessment
Solutions and Services

- Interim assessment throughout the year
- Fixed-form and adaptive testing:
 - » Standards-based
 - » Single assessment → multiple scores
 - » Integrate with your SIS
- Assessment development services and consulting

Analyze

results with
Scantron Analytics

- No data warehouse needed
- Dashboards provide easy snapshots
- Explore your data by simply clicking
- Quick disaggregation for deeper analysis

Predict

performance with
Scantron Analytics and
Psychometric Services

Includes:

- Early Warning System
- Customizable indicators and thresholds
- Email alerts for newly at-risk students
- Easily view changing profiles
- Predictive validity and other psychometric studies and services

“The higher number of logins to the solution a school has, the higher their state test results are. And schools who are using Scantron Analytics are seeing reduced behavior problems.”

– Julie Oziemkowski, Director of School Improvement
Community Unit School District 200, IL

Spotlight on Baldwin County Schools, AL

Baldwin County Schools, Alabama, saw overall academic gains in nearly every school in the county. Alabama chose Scantron's Performance Series as its state-wide interim summative assessment and many districts also use Performance Series as a growth measure throughout the school year. This computer-adaptive exam is tightly connected to Alabama's education standards, and expands educator's options to measure students' growth beyond a single summative test.

3-point increase in state report card score.

All schools scored C or higher.

"The thing that we love about...Performance Series is that it is a formative measure. We give it three times a year. We give it right after Labor Day for a baseline score. We give it again in February to see how kids are improving. And then the summative piece is in April. So it gives us opportunity to check along the way."

— Dr. Joyce Woodburn, Baldwin County Academic Dean

Available Services

Assessment Development Services

Whether you need support for the entire assessment development cycle or targeted help with a few key activities, Scantron's team of experts can help you develop assessments.

Professional Development

Scantron's experts can work with you to create sessions for key educators or assessment specialists on the assessment development cycle.
