High-Volume OMR and Image Scanning with Color

iNSIGHT™ 1500c OMR and Color Imaging Scanner

Trust the Scantron family of high-precision, high-capacity data collection tools, with their proven optical mark recognition (OMR) and imaging features, to meet your large-scale data management needs. The iNSIGHT 1500c OMR and Color Imaging scanner allows for high-throughput, high-speed production operation.
Rugged Construction
Industrial-strength design and components ensure many years of production scanning and maximum return on investment.

Trust the Scantron brand
More than 40 years of data capture expertise provides the quality and reliability you deserve.

Guaranteed Performance
Enjoy peace of mind with our integrated, performance-optimized PC controller.

High-Throughput Feed for Rapid Performance
High-capacity input bin means you save time by reloading less frequently.

Control Scanning with a Touch
Control panel ensures easy one-touch start-and-stop scanning for simple processing.

Rugged Construction
Industrial-strength design and components ensure many years of production scanning and maximum return on investment.
Eliminate Errors
Image Quality Sentry continuously monitors scanning to ensure the most accurate results possible. This virtually eliminates read problems from dust and debris.

High-Speed Accuracy
Process up to 15,000 sheets/hour, using 16 million colors and infrared to accurately capture even light OMR marks as well as 240 dpi full-color images.

Capture ALL Your Data with a Single Scanner
High-speed digital cameras collect multiple data types in a **single pass**: pencil or ink OMR marks, bar codes, handprint capture, color images, and much more.

Take the Guesswork Out of Scanning
Open feed path provides a clear view of forms being scanned, while also eliminating dust buildup. Immediately see and clear any path obstructions.
Optional Equipment

- Print information directly on the sheet being scanned, based on the scanned data, by adding an internal, interactive printer. Print error codes, messages, serial numbers, validation flags, or test scores on each form without slowing down scanning.

- Process data contained in most standard barcode formats using the optional barcode reader.

- Develop custom scanning applications and get the most from your investment using ScanTools Prisma software for:
  - Editing, scoring, validating, and displaying data
  - Converting data to commonly used export formats
  - Read machine or hand print comments using optional Advanced Character Recognition software

iNSIGHT 1500c Scanner

Physical Description
- Document Transport: 55” H x 48” W x 29” D (139.7 cm H x 121.3 cm W x 73.7 cm D)
- Weight: Approximately 485 lbs. (219 kg)

Environment
- Operating Temperature: 68° – 80° F (15.6° – 20° C)
- Humidity: 40%–60%, noncondensing

Power
- Standard: 47–63 Hz ±5%, 100–240 VAC ±10%. Requires 15 amp dedicated circuit, single phase

Communications
- PC controller supplied with scanner

Operation
- Maximum Speed: 15,000 8½” x 11” (216 mm x 280 mm) sheets per hour
- Read Head:
  - OMR: Pencil (infrared) and Ink (red)
  - Image: 240 dpi, 16 million colors
- Hopper/Stacker Capacities:
  - Input Hopper: 750 sheets;
  - Output Stacker: 750-sheet main and one 250-sheet select stacker
- Forms: 3¼” x 7” to 9” x 12” (82.5 mm x 177.8 mm to 229 mm x 305 mm); uses standard Scantron Mark Reflex® forms

Components
- Read Head: mark discriminating, self-calibrating read head, two-sided reflective read
- Document Transport: Automatic feed, active sheet deskew, two output stackers
- Options: Transport printer, bar code reader

Product information is subject to change without notice.
