## Optional Equipment

- By adding an internal, interactive printer, print information directly on the sheet being scanned based on the scanned data. Print error codes, messages, serial numbers, validation flags, and test scores on each form without slowing down scanning.
- Process data contained in most standard barcode formats using the optional barcode reader.
- Score tests, collect surveys, and tally ballots—without being connected to a computer—by adding the SelfScore feature.
- Collate scanned sheets based on criteria selected in your scanning software using the optional Select Stacker.
- Process machine and hand print data by adding our character recognition software.
